

## Abhijit Kumbhar

Personal Information – Abhijit Kumbhar was brought up in a small town of Ichalkaranji, Maharashtra. He left hometown for Studying Engineering and has been in United States for 13 years. Abhijit has hobbies of making songs, acting and mentoring. He has one daughter of 10 years. Being from a modest family and a smaller town, Abhijit considers blessed to do few right things that gave opportunities of giving little success in life. The life also had share of mistakes because of not having information of outside world, having no mentor in life and certain weaknesses. Moving from a smaller town to bigger cities like Mumbai and then to United states was challenging especially in an era when Internet was still developing, and information was not available. He likes to read books on self-development as he has liking of studying people and learning from them.

Education and Profession- Abhijit did Electrical Engineering and then did Master of Technology from IIT Kharagpur. Then he joined software industry and has been working in Enterprise Applications like CRM, ERP. Currently he is working is Sr Business System Analyst with Nutanix in San Jose, California. The job profile involves implementing software projects that enable companies to do their business more effectively.
