

Aishwarya Sarma

Personal information: Aishwarya Sarma is a very social, fun-loving and easy-going person. Besides being a nerdy scientist, she enjoys reading, painting, crafting and playing the violin. Currently, she works at a Biopharma company as a Scientist and lives in Boston, Massachusetts.

Professional Background and experience: Aishwarya Sarma is based out of Bombay (Mumbai), India. She has always had an aptitude for scientific learning and went on to pursue a Bachelor of Science degree in Pharmaceutical Sciences from Mumbai University. Her ambition and passion took her to United States of America, wherein she pursued her Master of Science degree in Toxicology from St John's University. Her contribution was well recognized. Not only did she get full scholarship but also went onto become an Adjunct professor at St John's University where she taught undergraduate Pharmacy Students subjects like Fundamentals of Biology, Histology. Aishwarya's passion to find a cure for disease or be a part of community that will work towards finding a cure led her to join a Biopharmaceutical Company as a Scientist. Her contribution in the company has been primarily in Research and Development and some experience in Regulatory Affairs. She works on planning and executing research studies that ensure that the trial-medicine is safe in humans.
