

Neha Agarwal

Personal Information: I was born in Kanpur UP , and currently lives in the Tampa Bay area, with my husband. I love teaching, traveling, reading and cooking. My dream is to spread knowledge that I have gained in my life to everyone possible.

Professional Information: I did my masters from Madurai TN and moved to the USA in 2010 to pursue Ph.D. in Molecular Biology. As I love teaching, I worked as a Teaching assistant and taught Microbiology for five years during my Ph.D. Right now I am working as an Innovation Associate at Moffitt Cancer Center, Tampa, where I help in patenting and licensing the new inventions and fostering business alliances between Moffitt and industries.
