

# Shiba Sundar Dandpat

Shiba is born and brought up in a small town called Baripada in Odisha (India). After his high school at Kendriya Vidyalaya, Baripada, he moved to National Institute of Science Education and Research, Bhubaneswar for undergraduate program in int. BS-MS (Chemistry). Currently, he is pursuing his doctoral study at the University of Michigan, Ann Arbor in Chemistry/Biochemistry. His research work broadly involves looking at the structure-function relationships of a type of non-coding bacterial RNA, specifically known as riboswitches. After his doctoral study, Shiba is interested to work in the field of business development and consulting for biomedical science and healthcare industries. Other than his research work, he is passionate about traveling, cooking, and photography.
