

**Fate whispered to the warrior “The storm is coming”
The warrior whispered back, “I am the storm”**

I was born in Allahabad, Uttar Pradesh. I was always very interested in Science and communication. After finishing my Bachelor and Master studies in Biochemistry, I decided to dive deeper in the field of scientific research. It was at the University of Muenster in Germany that I received my doctoral degree in Biotechnology. Currently, I work at a German firm in healthcare communication and management. I enjoy collaborating with people from all walks of life and have the firm conviction that “What doesn’t kill you, makes you stronger”. It is always the attitude that matters. So say a prayer, keep the faith, and march on!
