

Surajit Chakroborty

My name is Surajit Chakroborty. Currently, I am pursuing my Ph.D. in the Department of Medical Microbiology of the Post Graduate Institute of Medical Education and Research (PGIMER), Chandigarh. I have come across the details of your mentoring program for underprivileged children in India. I would like to be a part of such an initiative. Children are our future, and I believe the FEA initiative is the right opportunity for me to help the underprivileged children move a step further in life. It will be an honour in case I get an opportunity to get into this humanitarian initiative.
